

Williamson County COVID-19 Vaccination Plan

A Plan to Reach Social Immunity for
Phase 1B – High Risk/Vulnerable
Populations

COVID-19 Response - Success Story

- Williamson County has received 1,900 vaccines and 100% have been administered.
- Through partnerships Williamson County has coordinated 45,488 COVID-19 tests – providing prompt, easy access and test results on average in 48 hours.
- Williamson County maintains a Wilco dashboard and operated a call center to answer questions regarding COVID-19.

Pandemic Partnerships

Family Emergency Rooms

- FER has an 18.9 sq. ft. ultra-cold freezer, several regular freezers and refrigerators that are continuously monitored with NIST Certified thermometers.
- Proven online appointment system that is user-friendly.
- Staff to operate mass vaccine sites with up to 12 vaccine dispensing stations.

Locations:

- Cedar Park (2)
- Georgetown
- Round Rock (2)

Pandemic Partnerships

Curative

Curative's mission is to end the COVID-19 pandemic.

To date, we have supported public health efforts by performing over 8 million COVID-19 tests across 8,000 testing sites.

From field operations to certified lab facilities, Curative has built a massive, robust, and rapid infrastructure for COVID-19 testing.

With the same mission, we are now rising to meet new challenges. During the coming months, we will use our nation-wide infrastructure to deliver COVID-19 vaccine together with federal, state, and county-level partners.

WILLIAMSON
COUNTY

1848

Curative's mobile van with freezer capacity will allow us to serve homebound elderly and target populations in the county's rural areas.

Vaccination Locations

Large Distribution Sites across Williamson County

**Sun City Texas Ballroom
(Confirmed)**

The Sun City Texas Ballroom has previously been used for a mass vaccination flu clinic and has ample parking to support a large vaccination site. Surrounded by a plethora of residential areas, this site has potential for outreach beyond this community.

**Williamson County Expo, Taylor
(Confirmed)**

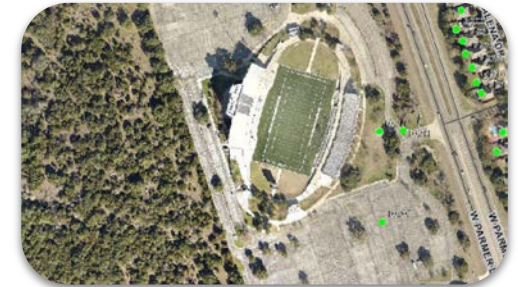

William County Expo is a renown site in Taylor that has two large capacity parking lots where a vaccination center could serve hundreds of patients per day.

**Dell Diamond, Round Rock
(Confirmed)**

Dell Diamond is the home stadium of the Round Rock Express. This stadium has access to multiple parking lots capable of running a massive vaccination project. This stadium can serve as the central hub of vaccinations for Round Rock.

**Kelly Reeves Athletic Stadium
(Confirmed)**

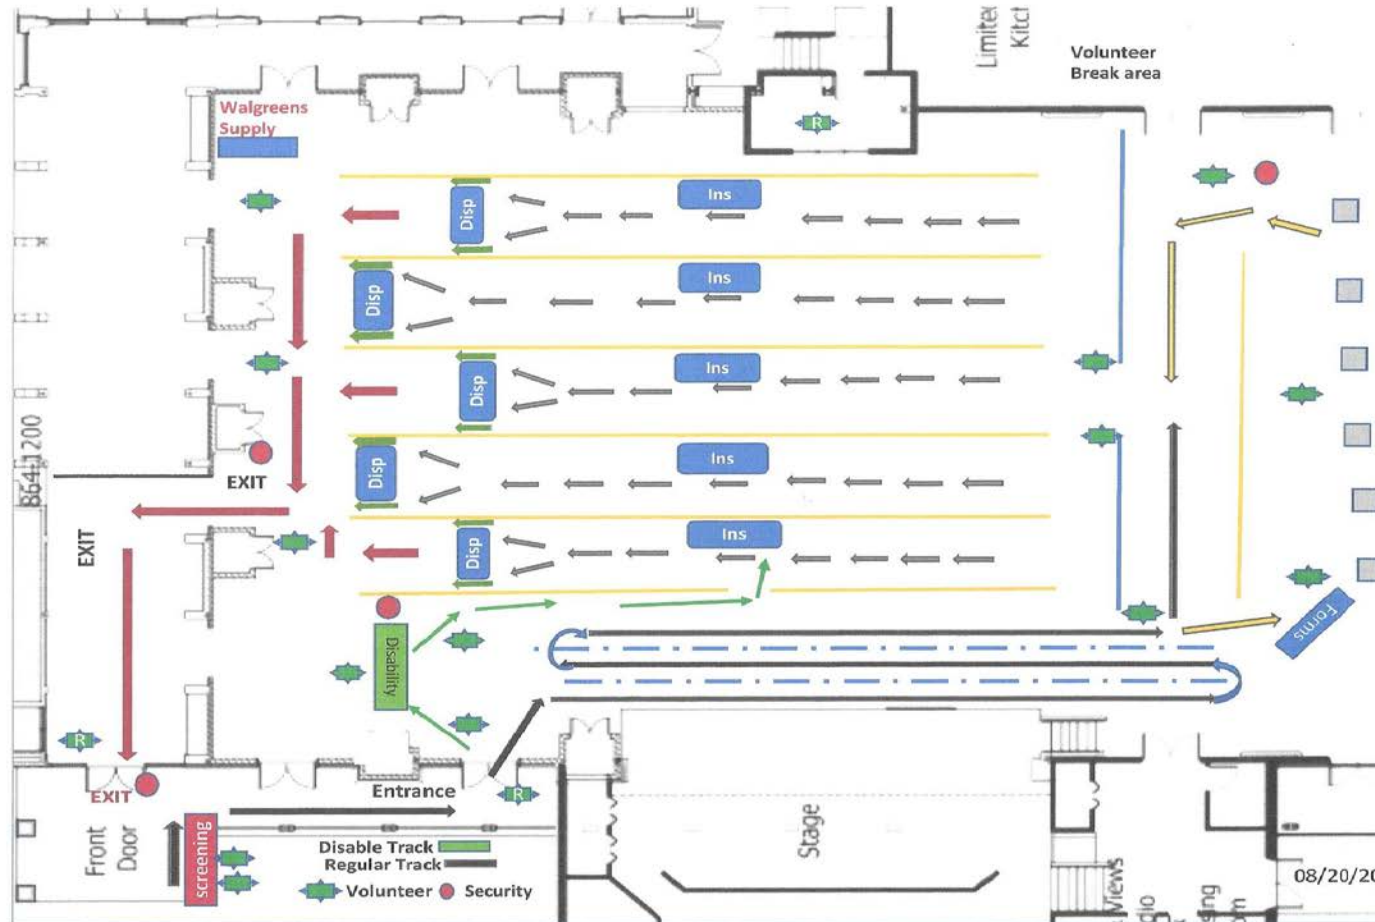

KRAS has been used successfully before to serve the county during an emergency. Site plans for vehicle movement are already created and certified. Neighborhoods surround the KRAS with the potential for outreach.
